TSPi Test Log Instructions - Form LOGTEST

Purpose	<ul style="list-style-type: none"> - The test log contains a summary of the tests run and the results obtained. - With the test log data, you can readily determine which tests were run and which found the most defects. - You can also determine the test run time and the defects found per testing hour. - Data from this log can help you select the most efficient strategy for regression testing modified programs.
General	<ul style="list-style-type: none"> - Use the log to track all unit, integration, and system testing. - A test run is an uninterrupted run of the test. - When a test must be stopped, either to fix the program being tested or to change the test materials, that test run is concluded. - When the test is resumed after the change, record this as a new test run.
Header	<ul style="list-style-type: none"> - Enter your name, date, team name, and instructor's name. - Name the part or assembly and its level. - Enter the cycle number.
Date	<ul style="list-style-type: none"> - Enter the date each test was run.
Test	<ul style="list-style-type: none"> - Uniquely identify each test. - Use the same name or number as in the test plan.
Product	<ul style="list-style-type: none"> - Name the product being tested.
Start	<ul style="list-style-type: none"> - Enter the time when the test was started.
Stop	<ul style="list-style-type: none"> - Enter the time when the test was stopped, either because it finished successfully or was aborted for any program or test-related reason.
Interruption Time	<ul style="list-style-type: none"> - If the test was temporarily suspended for a reason not connected with the program, that is interruption time. - For example, the tester took a break.
Delta Time	<ul style="list-style-type: none"> - The time between starting and stopping the test, less interruption time.

Problems	<ul style="list-style-type: none"> - The number of test problem reports - If one or more problems is determined to be a defect, note that under comments.
Comments	<p>Briefly note the test results. For example</p> <ul style="list-style-type: none"> - the test finished successfully - the test was completed, but the result was incorrect - the test failed with 3 problems, 1 defect - where possible, give additional information on test results, test configuration, or anything else that would permit reproducing the test results.
